

RARE CURRIER & IVES PIECES WE WOULD ALL LOVE TO HAVE

The pieces shown are just some of the really rare and hard to find pieces in the blue Currier & Ives pattern, with a few other C & I pieces shown as well. I know some of the members have some of the pieces and a few members have most, if not all of the pieces. There is more than double the amount of rare pieces besides what is shown. These would just be a start to some of the more sought after pieces one might want to add to their Currier & Ives collection. It is not even counting any of the pink Currier & Ives rare pieces, or any of the green or brown/black Currier & Ives dinnerware itself. So much "hunting" to do, so little time and money....
